Chasseurs de rêves

THE FOREST OF MASKS

Enormous masks peering out from the bark of these trees in motion represent the Spirits of these trees (stilt walkers).

These veritable living totems, symbols of life's renewal, dance and sow seeds of joy along their path among an awestruck public.

This is a highly colourful performance, choreographed and performed by a team of stilt walkers perched 4 feet above the ground.

Perfect for cocktails, Galas, corporate events, public festivals, theme parks, fairs, etc.
