# Chasseurs de rêves

## THE WINGS

Three adventurers perched four feet from the ground who can deploy their wings as angels, demons or butterflies.

Three timeless travelers, guardians of a completely imaginary culture,

but with roots so deep that everyone seems to recognize them.

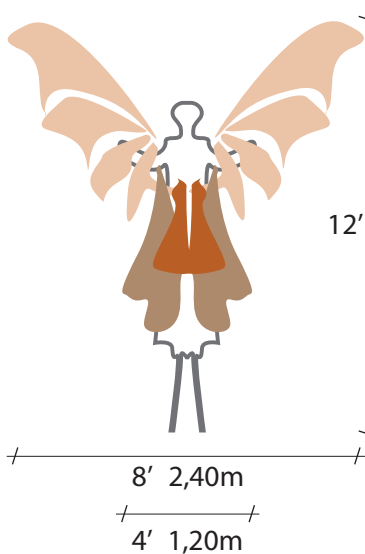

These dancers on stilts embody the aspirations of all cultures, roaming in interaction with the public, showing how we would fly if we could.

Accompanied by the astronomer (walking character), they move to the sound of the music played by the little dragon (cart).

Perfect for cocktails, Galas, corporate events, public festivals, theme parks, fairs, etc.
